| Requirement Description |
| --- |
| User should be able to open the login page |
| User should login with valid email and password |
| System should display error message for invalid credentials |
| System should validate empty login fields |
| User should search products using search bar |
| Search results should display matching products |
| User should view product details page |
| User should add product to cart |
| User should remove product from cart |
| Cart should display correct product price |

| SL.No | Section | Details |
|---|---|---|
| 1 | Project Name | E-commerce Manual Testing |
| 2 | Objective | Validate functionality of the e-commerce application |
| 3 | Scope | Login, Product Search, Cart |
| 4 | Testing Type | Functional Testing, UI Testing, Negative Testing |
| 5 | Test Environment | Windows 10, Chrome Browser |
| 6 | Entry Criteria | Application build available |
| 7 | Exit Criteria | All test cases executed and critical bugs resolved |
| 8 | Deliverables | Test Plan, Test Scenarios, Test Cases, Bug Reports, RTM |

| 10 | TS_CART_003 | REQ_CART_003 | Cart |

| Test Scenario |
| --- |
| Verify login page loads successfully |
| Verify login with valid credentials |
| Verify login with invalid credentials |
| Verify validation for empty fields |
| Verify product search functionality |
| Verify search results display correctly |
| Verify user can open product details page |
| Verify user can add product to cart |
| Verify user can remove product from cart |
| Verify cart displays correct product price |
